Milesight Sensor Configuration Tool is a portable configuration tool device for NFC configurations of Milesight sensors. As a professional NFC reading and writing tool, SCT01 features a straightforward panel with a large NFC area and clearly stated buttons, making it easy for users without any technical background to operate the configurations smoothly on the spot.

With a built-in battery and Type-C port, it can work for 6 hours and supports charging via a Type-C power bank, allowing users to easily bring the device everywhere.

Features

- > Compatible with all Milesight devices with NFC feature
- > Easy to read and write to devices with a large NFC area
- Equips with a buzzer and rich indicators to know the device status and configuration results visibly
- Simple operational panel with clear buttons design for easily configurations even for non-technical users
- > Built-in Bluetooth for easy tool configuration and template import, logs export, etc.
- Supports to store up to 50 configuration files and automatically adapt the configuration files to different models when assigning the configurations

- > Supports to store 1 firmware file to upgrade devices in bulk
- > With a built-in rechargeable lithium battery that works for 6 hours
- > Supports real-time data backup and charging through a USB type-C port

Specifications

Interfaces Bluetooth 4.0 (BLE) for Tool Configuration Bluetooth Distance: 1.5 m NFC Support ISO/IEC 14443A Protocol, Reading Distance: 1-3cm Slide Switch 1 x Power On/Off Switch 7 x Buttons for Sensor Power On/Off, Configuration, Upgrade, etc. Button LED Indicator 3 x Power, 3 x Configuration Status, 6 x Button Status Support to indicate configuration status Buzzer 1 x USB 2.0 Type-C Port for: USB Sensor Configuration Tool Power & Charge Sensor Power **Physical Characteristics** Memory 16 MB, support to store 50 configuration files and 1 firmware file 1. Built-in 2000 mAh Chargeable Battery Power Supply 2. 5V by USB Type-C Battery Life* (25°C) Around 6 Hours (Standby Mode: Around 1 Month) -20°C - 60°C **Operating Temperature** 0-95% (Non-condensing) **Relative Humidity** Ingress Protection IP30 Color & Material White, Plastic (HB Flame-retardant) Dimension 160 × 60 × 26.5 mm (6.3 × 2.36 × 1.04 in) Weight 141 g

* Tested under laboratory conditions and for guideline purposes only.
