KEY FEATURES

- ▶ Superior Image Quality (Starlight Sensor, Smart IR II Technology and high frame rate are supported for an excellent image quality.)
- ▶ LPR Smart Search (Relevant videos can be found quickly by searching for only a portion of the target suspect vehicle's features, such as vehicle type & color, plate color, plate number, direction and etc.)

Intelligent AI-powered LPR Algorithm

Entrance & Exit AI LPR Camera can not only recognize vehicle plates in real time, but also identify more vehicle features, like vehicle type, color, etc., generating reliable traffic insights to improve safety and mobility.

Evidence Camera Linkage

Entrance & Exit AI LPR Camera can link with any regular cameras to capture the evidence. Thanks to the seamless trigger between the LPR camera and the regular camera, users can easily provide solid and convincing evidence with LPR results together with overview snapshots and critical details.

Black and White List and No-plate Event

Entrance & Exit AI LPR Camera enable to achieve stand-alone solutions for license plate recognition as well as no-plate vehicle detection. Alarm is triggered as soon as the corresponding rule-compliant license plate is detected, enabling efficient and accurate access control at any gate.

Easy and Flexible Deployment

Milesight Entrance & Exit AI LPR Cameras enable a standalone license plate recognition solution for fast implementation scenarios with high efficiency and accuracy. It can also be used with NVR, CMS and VMS Enterprise, to form a fully closed-loop traffic solution.
