

KEY FEATURES

- ▶ 4/8-CH Network Video Input (Up to 4/8 channel IP cameras can be connected.)
- Dual Stream Recording (Supporting Primary Stream and Secondary Stream recording simultaneously.)
- Auto Backup (The latest 24 hour's video will be automatically backed up to USB port devices or NAS after setting up the backup.)
- ▶ Versatile Interfaces (A whole array of ports provides all necessary features for effective surveillance.)

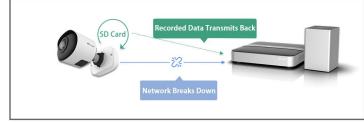

Power Decoding Capacity & Flexible Storage Options

- The 4K NVR is equipped with solid 4K decoding and display capabilities and maximum supports simultaneous viewing of 4*1080P or 8*720P network cameras.
- Providing flexible storage options including HDD and NAS to address the needs for versatile storage.

Reliability

 ANR can store video data on the camera storage card when network between IPC and NVR is disconnected and retransfer the recorded video to NVR after network recovers.

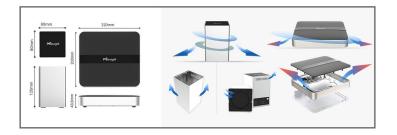

Al Video Analytics & POS Integration

- All-in-one to Manage Al:
 VCA Function focus on human and vehicle detection.
 People Counting provides high-accuracy data and statistic reports.
- POS machine information can be transferred to and displayed on the NVR.

Region Region Entrance Detection Advanced Medion Detection Object Left Object Left Object Left Detail Object Left Object Left

Ultra Mini Size & Thermal Design

- Ultra-mini size offers a compact design without compromising functionality, providing an easier way to ensure high-quality video management.
- The metal panel on the bottom of the NVR dissipates the heat effectively and the ventilation holes on the side and bottom panels maximize airflow and carry heat away.
